Conclusion

16. The Commission is proposing these rules to clarify the public service requirements for all those pending applicants and all future entities who may wish to serve as accounting authorities for the settlement of international radio maritime accounts involving U.S. registered vessels operating in foreign or international waters. By these rules, the Commission seeks to ensure that the public interest is adequately served as the Commission withdraws from its function as an accounting authority for non-governmental users of maritime mobile and maritime mobile-satellite radio services. It seeks comment on the proposed changes to the application procedure and any alternatives interested persons may wish to suggest.
